Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Coordinating schedules for team meetings across different class timetables	Used asynchronous WhatsApp updates for daily standup; scheduled Google Meet calls on weekends
2	Understanding the Gemini API integration and prompt engineering	Ayisha created a shared API documentation guide (API_DOCUMENTATION.md) that all members referenced
3	Merging code changes without conflicts	Adopted a modular development approach — each member worked on separate controllers/modules to minimize conflicts
