

Project Demo Planning

Date	29 September 2026
Team ID	6ab4ce760fc666a751b52130
Project Name	AI StudyBuddy
Maximum Marks	1 Mark

Project Demo Planning

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Present the project title, team members, and the 5 problem statements addressed by AI StudyBuddy	2	Ayisha H T
2	Solution Overview & Architecture	Explain the proposed solution, technology stack (Node.js, Express, MongoDB, Gemini AI), and MVC architecture	2	Ashwitha V
3	Live Demo — Authentication	Demonstrate user registration and login via Postman, showing JWT token generation	2	Sahira Safrin M
4	Live Demo — Material Upload & AI Features	Upload a study material file, then demonstrate AI summary, flashcards, quiz, and study plan generation	4	Sujatha S
5	Admin Features & Error Handling	Show admin endpoints (list users, stats) and error handling (invalid token, invalid file type)	2	Ayisha H T
6	Q&A Session	Answer questions from evaluators about the project implementation	3	All Members

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce AI StudyBuddy and explain the 5 key problems it solves for students
2	Solution Overview	Walk through the technology stack, architecture diagram, and project structure
3	Live Feature Demonstration	Start the server (npm start), register a user, login, upload material, generate summary, flashcards, quiz, and study plan — all via Postman
4	Q&A Session	All team members answer evaluator questions about implementation, design decisions, and future plans
